OUR COMMITMENT

To do business with integrity, honesty, and transparency; to uphold business ethics; and to stay committed to quality and customer satisfaction.

ABOUT US

A reliable partner for commodities and infrastructure

Founded in 2018, PT Dwipa Berkah Abadi (DBA) focuses on the production, processing, and distribution of commodities. We also provide procurement of goods and services, and telecommunication network services.

We take part directly in the production chain—from agriculture and mining to natural resource extraction—and turn these materials into higher-value products.

By supplying raw materials for industry and everyday needs, we help strengthen national and global supply chains.

Integrity
Honest, transparent, and accountable for every decision.

Quality
Strict standards from source to customer.

Sustainability
Caring for the environment and local communities.

Partnership
Long-term collaboration with clients, partners, and farmers.

VISION

A clear direction, measured steps

To be a leader in high-quality, sustainable, and innovative agricultural, energy, and infrastructure products—improving the welfare of farmers and local communities while meeting the needs of customers worldwide.

Vision pillars

Innovation
Applying technology and innovation across production, processing, and distribution.

Assured quality
Putting quality first, with strict standards and supervision.

Shared prosperity
Improving the welfare of farmers, workers, and local communities.

Social responsibility
Delivering CSR and community development programs.

Sustainable farming
Producing healthy, nutritious food through eco-friendly practices.

Clean energy
Supporting the shift to cleaner, more sustainable energy.

Environment
Reducing our carbon footprint, saving water, and protecting biodiversity.

MISSION

Our mission

01 Do business honestly, transparently, and openly; avoid any form of manipulation; and take responsibility for every action and decision.

02 Build and maintain strong relationships with stakeholders, employees, customers, partners, and local communities to reach shared goals.

03 Conserve natural resources, reduce environmental impact, and create positive social value.

04 Value diversity and build an inclusive workplace where every individual is respected and empowered.

05 Put workplace safety first and ensure every product is safe to use or consume.

06 Manage resources efficiently for maximum productivity and minimal waste.

07 Adopt new technology and drive innovation and continuous improvement across the business.

08 Uphold high ethical standards and respect human rights in every company procedure.

M. Deden Iskandar
President Director

FOREWORD

A Message from the President Director

> **Indonesia's natural wealth must be processed honestly and responsibly, so that it creates value for as many people as possible.**

Assalamu'alaikum warahmatullahi wabarakatuh, and warm greetings to you all.

Since our founding in 2018, PT Dwipa Berkah Abadi has grown on one belief: Indonesia's natural wealth must be processed honestly and responsibly, creating added value for many.

Today we supply palm oil, agricultural, and animal-based commodities, and support national development through fiber optic networks, heavy equipment and vehicle procurement, and construction services. We run every line of business to the same standard: quality, punctuality, and safety.

Thank you to our clients, partners, farmers, and employees for your trust. We invite you to grow with DBA and build a long-term partnership that benefits us all.

Wassalamu'alaikum warahmatullahi wabarakatuh.

M. Deden Iskandar
President Director, PT Dwipa Berkah Abadi

ORGANIZATION STRUCTURE

Lean, fast, and accountable

The President Director leads six divisions directly, so decisions are made quickly and every line of business has a clear owner.

PRESIDENT DIRECTOR

M. Deden Iskandar

Operations & Production
Palm oil, agriculture, and animal products

Telecom & Infrastructure
Fiber optics, construction, and utilities

Procurement & Logistics
Heavy equipment, vehicles, and materials

Marketing & Sales
Clients, partnerships, and market development

Finance & Administration
Accounting, tax, and legal

HR & HSE
People, safety, and environment

PRODUCTS & SERVICES

Six business lines, one quality standard

Palm Oil Industry

Crude palm oil and palm kernel oil for industrial markets, adding value at every stage of production.

Processed & Derivative Palm Products

Processed and derivative palm products for households and the food, energy, and chemical industries.

Agricultural Commodities

Agricultural commodities widely traded in domestic and global markets.

Animal-Based Commodities

Quality animal products to meet ever-growing food demand.

Fiber Optic Telecommunication Networks

Fiber optic network construction and services for modern telecommunication infrastructure.

Heavy Equipment, Vehicles & Construction

Heavy equipment and operational vehicle procurement, construction services, and project materials across Indonesia.

PRODUCTS & SERVICES · 01

Palm Oil Industry

Crude palm oil and palm kernel oil for industrial markets, adding value at every stage of production.

Crude Palm Oil (CPO)
Oil from the palm fruit flesh; a raw material for food, cosmetics, and biofuel.

Crude Palm Kernel Oil (CPKO)
Oil from the palm kernel for the food, cosmetics, and chemical industries.

PRODUCTS & SERVICES · 02

Processed & Derivative Palm Products

Processed and derivative palm products for households and the food, energy, and chemical industries.

Palm cooking oil
For households and the food industry.

Margarine & shortening
Solid fats for bread, pastries, and processed food.

Oleochemicals
Raw materials for cosmetics, detergents, lubricants, and agrochemicals.

Biodiesel
Renewable plant-based fuel for diesel engines.

Soap, detergent & candles
Cleaning products plus decorative and industrial candles.

PRODUCTS & SERVICES · 03

Agricultural Commodities

Agricultural commodities widely traded in domestic and global markets.

Grains
Wheat, corn, rice, and soybeans.

Plantation crops
Coffee, cocoa, and tea.

Sugar & sweeteners
For industry and distribution.

Fruit & vegetables
Fresh, straight from partner farmers.

PRODUCTS & SERVICES · 04

Animal-Based Commodities

Quality animal products to meet ever-growing food demand.

Meat
Beef and chicken.

Dairy
Milk, cheese, and butter.

Eggs
Reliable, regular supply.

Seafood
Fish, shrimp, lobster, and crab.

Processed products
Sausages, jerky, and more.

PRODUCTS & SERVICES · 05

Fiber Optic Telecommunication Networks

Fiber optic network construction and services for modern telecommunication infrastructure.

High speed
Data transmission from gigabits up to terabits per second.

High bandwidth
Far greater capacity than copper cables.

Long reach
Few repeaters or signal boosters needed.

Interference-free
Unaffected by electromagnetic interference.

More secure
Hard to tap without detection.

PRODUCTS & SERVICES · 06

Heavy Equipment, Vehicles & Construction

Heavy equipment and operational vehicle procurement, construction services, and project materials across Indonesia.

Heavy equipment
Excavators, bulldozers, cranes, loaders, backhoes, dump trucks, graders, compactors, and forklifts.

Operational vehicles
Fleets for companies and organizations.

Construction services
Planning, design, execution, and maintenance of civil, mechanical, electrical, and plumbing works.

Project materials
Material procurement for projects throughout Indonesia.

PROJECT SUMMARY

The scope of work we deliver

Agro-industry

CPO/CPKO Supply & Distribution

- ✓ Sourcing from partner estates & mills
- ✓ Quality control
- ✓ Logistics to industrial buyers

Food & retail

Food Commodity Distribution

- ✓ Agricultural & animal products
- ✓ Scheduled supply
- ✓ Storage & delivery

Telecommunications

Fiber Optic Network Rollout

- ✓ Network survey & design
- ✓ Cable & equipment installation
- ✓ Testing, activation & maintenance

Mining, construction, agriculture

Heavy Equipment & Fleet Procurement

- ✓ From excavators to forklifts
- ✓ Operational vehicles
- ✓ After-sales support

Civil & MEP

Construction & Infrastructure

- ✓ Planning & design
- ✓ Civil, mechanical, electrical & plumbing works
- ✓ Project material procurement

Utilities

Groundwater Wells & Telecom Exchanges

- ✓ Groundwater well drilling
- ✓ Telecom exchange construction
- ✓ Electrical networks

How we work

1. **Consultation**
   Understand your needs, volumes, and timelines.
2. **Planning**
   Specifications, quotation, and work schedule.
3. **Execution**
   Production, procurement, or on-site works.
4. **Handover**
   Quality checks, documentation, and ongoing support.
